PUBLIC HEARING OPENED

Aaron Oesyreich of 870 Barilane, Troy, was present. Mr. Oesyreich spoke favorably of the proposed PUD.

Ilene Hill of 2139 Lancer Drive, Troy, was present. Ms. Hill spoke favorably of the proposed PUD and developer. She addressed the multitude of disruptions their neighborhood has experienced from previous major projects in the area. Ms. Hill voiced concerns with construction hours of operation, noise level, asbestos removal, dirt and dust, capacity of water and storm water runoff, traffic, parking, dumpsters, and locations of the proposed staging areas.

James Forrer of 3592 Eastbourne, Troy, was present. Mr. Forrer spoke favorably of the proposed PUD and complimented the petitioner on his presentation.

Michael Flesher of 2091 Lancer, Troy, was present. Mr. Flesher voiced a concern with the proposed food market as relates to noise and health. He also addressed the affect that the proposed development might have on home values in the neighborhood.

Mary Ellen Budabin of 2105 Babcock, Troy, was present. Ms. Budabin said the petitioner has not addressed her concerns. She stated the house depicted in the pictures displayed during the petitioner's presentation to simulate the residential buffer to the north is her home, which is located at the lowest part of the berm and within full view of the former K-Mart Headquarters parking lot. Ms. Budabin said her view with the proposed development would be a skyline of buildings, not blue sky; and that her life would change. Ms. Budabin suggested a different layout orientation of the proposed townhouses so a view of a common area would be provided instead of an alleyway, garage door, utility meters, and upstairs windows.

Tim Dalglish of 3603 Salem, Troy, was present. Mr. Dalglish said he would like the berms to be similar to those provided for the residents abutting Somerset North, and noted the two berms on each side of Coolidge should be equal distance. He voiced concerns with the proposed multi-screen movie theater as relates to the type of crowd it would attract.

John Bailey of 755 W. Big Beaver Road, Troy, was present. Mr. Bailey, incoming Chairperson for the Chamber of Commerce, spoke in favor of the proposed PUD.

PUBLIC HEARING CLOSED

Mr. Vleck said he is impressed and amazed at the amount of support expressed tonight. He complimented the petitioner and the development team.

Mr. Strat complimented the petitioner. He questioned what construction was inclusive of Phase 1, as envisioned on the project model. Mr. Strat asked if anything has been accomplished to incorporate a pedestrian walkway across Big Beaver.

Mr. Richardson said a pedestrian bridge has not been designed because they do not control enough of the environment to accomplish such, but he indicated they have not done anything from a planning perspective to preclude construction of one. Mr. Richardson addressed the three pedestrian crossings that would be designed with the intent to create refuge zones.

Mr. Miller addressed lane reconfiguration that would increase pedestrian safety zones.

Mr. Strat asked if a secondary lane with pedestrian refuge and boulevard area as portrayed in the Big Beaver Corridor Study would be incorporated in the project.

Mr. Richardson replied that concept was researched and it was determined that it did not add or contribute to what they were doing relative to the environment.

Ms. Troshynski complimented the petitioner for the effort he put forth to satisfy the people of Troy. She asked the petitioner to address cost factors that would result from proposed improvements.

Mr. Richardson said the matter of costs resulting from road improvements and sanitary, sewer and water improvements is under discussion with City Management, and indicated City Management has made a commitment toward resolution of those costs.

Ms. Troshynski stressed the importance of a pedestrian bridge from Somerset to The Pavilions.

Mr. Richardson said he strongly encourages a pedestrian bridge also and addressed the public-private partnership that would be necessary to attain a pedestrian bridge.

Mr. Littman asked if the Assessing Department researched the effect of the proposed development on neighboring home values.

Mr. Richardson said it is his experience that projects such as this provide a positive upturn to home values within the neighborhood.

Mr. Miller said he would ask the City Assessor to provide a report on the outcome of home values in correlation to this type of development.

Ms. Kerwin expressed her excitement to see the proposed development come to fruition.

Chair Schultz addressed the critical need for redevelopment in the City, and said the development would set the tone for future developments within the City. He said the development would truly keep Troy the *City of Tomorrow Today*.

Mr. Tagle asked the petitioner to address the business operation, hours of operation and building occupancy.

Mr. Olivier said the facility would be rented for pre-scheduled special events, such as birthday parties. Giant inflatable play structures are set up in two separate stadiums.
